

# Detailed analysis of detected potholes

The total number of potholes is 4

Pothole locations (in mm) relative to the "map" coordinate frame:

- Location of pothole #1 is approximately: x: 42, y: 42
- Location of pothole #2 is approximately: x: 88, y: 88
- Location of pothole #3 is approximately: x: 121, y: 121
- Location of pothole #4 is approximately: x: 119, y: 119

The map of the actual vs detected potholes (sky blue squares):
